## Afrodite Collection

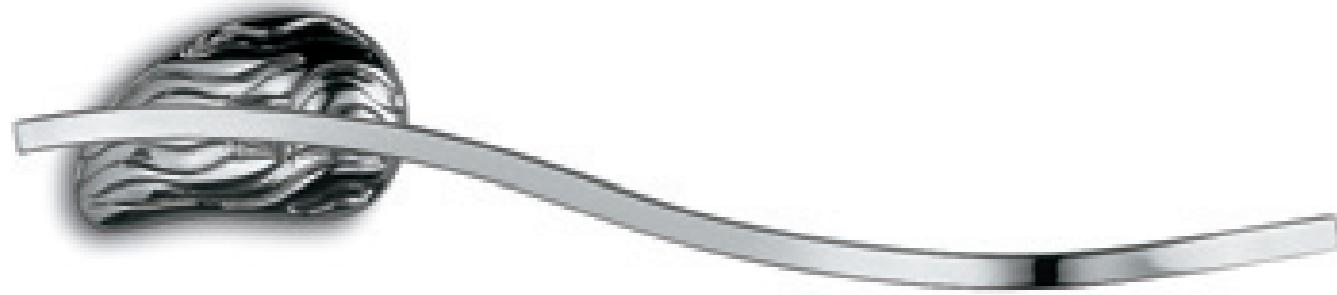

design: Studio Sandini & Associati

La nuova linea "Afrodite" nasce dall'impulso di voler coniugare stili estetici attuali, come richiedono le moderne tendenze, e richiami alla natura, che prepotenti plasmano le forme. Lo studio "Sandini & Associati" ha generato questa collezione, in cui da un lato il carattere, l'espressività naturalistica della rosetta e dall'altro la linea essenziale e sinuosa al tempo stesso del porta-asciugamani si coniugano in perfetta armonia. Nella rosetta, elemento distintivo della serie si è voluto ricreare una sorta di ciotolo di mare "maltrattato" dal vento e dalle onde, qui ben rappresentato dal movimento ondulatorio irregolare dell'impugnatura del porta-asciugamano.

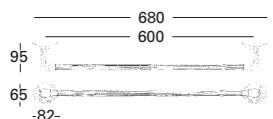

New line "Afrodite" born from the impulsive will to join together current aesthetic styles, as modern fashion requires, and naturalist marks which mould new shapes. The office "Sandini & Associati" generates this collection, which creates a perfect harmony between the characteristic and natural expressivity of the rose and the essential and sinuous line of the towel bar. The aim of rose design, distinctive element of this series, is to restore a kind of a "frustrated" sea-stone, which was "ill-treated" from wind and waves. We can see this irregular wave-motion in the towel bar.
